

Hekto Marketplace - Day 6 Work Plan

Work to Submit:

1. Staging environment deployed Link.
 2. A new GitHub repository with:
 - A documents folder containing all Day 1 to Day 6 documents.
 - Test case report in CSV format.
 - Performance testing results.
 - Organized project files.
 3. README.md file summarizing all project activities/Folder Structure.
-

Day 6 - Deployment Preparation and Staging Environment Setup:

On Day 6, the focus will be on preparing the project for deployment and setting up the staging environment. The following tasks will be completed:

- **Finalize the staging environment setup** for testing.
 - **Prepare necessary files** for submission, including test case reports, performance testing results, and organized project files.
 - **Ensure the project is fully functional** in the staging environment before deployment.
-
